Conference Paper Review – Assessment Instructions

Image Processing and Computer Vision

EC6206

Instructions

1. Paper selection deadline: **15th February**.
2. After selecting the paper, the required information must be added to the provided Google Sheet using the group link:
[Google Sheet Link](#)
3. The selected paper must be presented using **PowerPoint (PPT)**, covering the introduction, literature review, methodology, results and discussion, and conclusion.
4. All group members must participate in the presentation and present the presentation.
5. Each group is allocated **10 minutes** for the presentation, followed by a **5 minute individual viva session**.
6. Presentations will be conducted on **6th week of Semester**, according to the schedule. The presentation location will be updated on **ELMS**.
7. Students must be present on time for their presentation. Failure to do so will be considered a **late submission**.

8. The detailed time schedule for conference paper evaluation will be shared with you in due course.
